PROFESSIONAL SUMMARY

Detail-oriented **Frontend Developer** and Information Technology undergraduate with hands-on experience building responsive, performant web interfaces using HTML5, CSS3, JavaScript (ES6+), and modern layout techniques. Combines technical front-end skills with strong visual design expertise including logo creation, poster design, and graphic editing to deliver engaging digital applications. Proven background in digital content creation, social media leadership, and technical customer support.

TECHNICAL SKILLS

- **Frontend Web Development:** HTML5, CSS3, JavaScript (ES6+), Responsive Web Design (RWD), CSS Flexbox/Grid, DOM Manipulation, Swiper.js, Web Accessibility (a11y)
- **UI/UX & Graphic Design:** Adobe Photoshop, Adobe Illustrator, Canva, Logo Design, Poster Composition, Brand Systems, SVG Web Assets
- **Databases & Programming Languages:** Java, PHP, CodeIgniter, SQL, MySQL, MongoDB, Turbo C++
- **Tools & Software:** Git/GitHub, Browser Developer Tools, Microsoft Word & Excel
- **Languages:** English (Fluent), Tagalog (Native), Ilocano (Native)

FEATURED FRONTEND PROJECTS

Interactive Portfolio & Design System Web Application

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Swiper.js, CSS Grid/Flexbox

- Engineered a fully responsive single-page web application featuring dynamic section animations, dark-mode aesthetics, and modular component design.
- Developed an asynchronous category filter system (All, Frontend, Logos, Posters) using vanilla JavaScript to instantly sort gallery cards without page reloads.
- Built a zero-dependency **Lightbox Modal** for full-screen image previews featuring keyboard navigation (Escape key) and backdrop click dismissal.
- Implemented UX micro-interactions including full-page load spinners, scroll-triggered element reveals, and a fixed smooth "Scroll to Top" navigation element.

WORK EXPERIENCE

Frontend Developer & Digital Visual Specialist | Freelance / Independent

Present

- Develop modern web interfaces using semantic HTML5, responsive CSS architectures, and vanilla JavaScript (ES6+).
- Create vector logos, promotional posters, and visual brand assets, converting designs into optimized web formats (SVG, WebP) for fast page performance.
- Apply typography, color theory, and visual hierarchy principles to bridge graphic design aesthetics with clean front-end code.

Customer Service Representative | ResultsCX

5 Months

- Responded to inquiries via phone, email, and chat, troubleshooting basic technical issues and guiding users through online services.
- Handled customer concerns with patience and empathy, maintaining high customer satisfaction ratings.
- Communicated platform navigation workflows clearly to help non-technical users resolve account and service issues.

Independent Author & Publisher | Self-Published

Present

- Authored and published original fiction novels, including *The Second Encounter*, *Melting Your Precious Heart*, and *The Chosen One*.
- Formatted, edited, and rendered digital manuscripts and graphic cover assets for online publishing platforms.

LEADERSHIP & ACTIVITIES

Former Head of Social Media | Microsoft Computer Society

- Managed digital branding, social media strategy, and promotional content for organizational events and technical workshops.
- Designed promotional posters and marketing media, expanding student reach and event participation.

EDUCATION

Bachelor of Science in Information Technology (4th Year Undergraduate)

Central Luzon State University
